# Ask Nana

E-mail your questions to [nana@keywestgayrag.com](mailto:nana@keywestgayrag.com)

Dear Nana,

*My boyfriend and I have been together for about 3 years. We've been living together for 2 out of the 3 years and almost everything is perfect. Everything except our love life. We still have sex regularly (once a week), but there isn't much flavor left in it. It's pretty much just something we do. Do you have any advice on how to spice things up?*

- Ho-hum Husband

Dear Homo Hubby,

Well, first off, congrats on your successful long term relationship! Those seem to be as rare as diamonds nowadays... and not just with gay men, but with all mammals! But from the sounds of it, it does seem like the spark has left your spark plug. I would suggest you two communicate. You both need to admit to each other that you BOTH are feeling a little bored. It's not anyone's fault. Let's face it: eating corn flakes every day for 3 years will not only leave you bored at breakfast... but it will also do a number on your morning constitution. So I think you two should sit down, talk it out, and brainstorm some sexy

solutions. Do some things you've never done before. Maybe that means role play or bondage or food. I know one couple who put the spice back in their love life by putting themselves in situations where they might get "caught" doing it. Of course, approach this one with caution: getting caught in the stall at a gay bar is a little different than getting caught on the jungle gym of an elementary school! But whatever floats your boats, just be willing to give it a try. The spice doesn't have to disappear after a few years; it just takes a little more effort. But believe me, if I can still get my Model T humming, you boys should have no troubles!!

*Dear Nana,*

*My roommate has been really crossing the line lately. We've always been good friends and lived well together, but he has been getting progressively messier in the last 6 months. This has led to problems with bugs in our home. Though I am no neat freak, I do keep my own room pretty nice and try to keep the common areas tidy. He recently texted me while I was away to tell me that he hopes I don't mind that he used my room to have sex with a stranger one night because his room was too much of a mess to bring a guy into. He says he washed the sheets and comforter and that I would have never known, but he wanted to be honest. This really bugs me, though. How should I handle this?*

*- Too close for comfort*

Dear Comfort,

Here's how you handle this: KICK HIS DIRTY ASS OUT! Oh my sweet Lord & Taylor are you kidding me?! It doesn't matter if you would have "never known", you do know and it is totally disgusting! This person has got some serious boundary issues. Not to mention some serious health issues. If he keeps his living space so disgusting that he can't bear to show it to another

person than that should make him question some of his life choices. Not just roll them over into your bed and go to town. I hope you are aware that if either of them had scabies, body lice, crabs, or even pink eye; you are most likely going to have it now. What a lovely gift for a friend to give another. Hell, my neighbor once gave me a VCR that didn't work and I didn't talk to her for a month! Drop this queen and find a new, normal roommate. Period.

*Do you have problems? Of course you do!! Why not let Nana help you?! Send your questions to:  
Nana@keywestgayrag.com.*

# Caribou Barbie

by: **Brad Loekle**

You know who I'm talking about... come on, I know you do. That's my pet name for the Republican crypt keeper's choice for V.P.: Sarah Palin. Now I am sure it won't come as much of a surprise that I am a registered democrat; but, that being said, I have always tried to remain open to all candidates. Though McCain wasn't going to be the republican to get me to cross party lines, I did consider him an honorable man and a good politician. Recognizing that "good politician" is similar to the phrase "courteous rapist". But when he took on Caribou Barbie as the possible his number two (and I can't think of a better term for it), I just about shit an angel!

From a comedic point of view I couldn't be happier with his choice. Sarah Palin is to comedy what Dan Quayle was to comedy. But even so, the patriot in me can't stand by and simply rejoice in the notion that I would get four to eight years of free material out of the white house. This woman, and her entire family, terrifies the shit out of me.

First of all, she is the governor of Alaska. Just being from Alaska should automatically disqualify you from running for President or Vice President. Have anyone of you ever been to Alaska? I have! It is a beautiful place... filled with some of the friendliest and fucked up people you will ever meet. There aren't even a million people in the whole state. They should change their motto to, "Alaska: the solitary confinement state". Being around that much nature just isn't healthy. If God wanted us to still live in the wilderness, he wouldn't have had us build cities in the first place. And not only is she from Alaska, but is now claiming that this is what makes her a good candidate when it comes to foreign policy. They are claiming that since the governor of each state controls their state's National Guard, and since her national guard has been deployed to Iraq, well then she certainly have foreign policy experience. WHAT?! How on God's Earth does that make any sense at all?! Palin claiming that she has international experience because she controls the Alaska National Guard is like saying I'm ready to perform a Briss because I've blown a few Israeli guys before.

And then there's here jacked up family. You've got her eldest son, "Track"... most likely named after the place he was conceived, since Sarah and her hubby were banging in high school without protection. You just look at Track and see that he has date raped at least 2 cheerleaders and

a fat chick in his day. You mark my words, it will call come out and then they will make a Lifetime movie about it entitled, "Danger in Alaska: The Track Palin Story". And just to add insult to injury, Tori Spelling will play him.

And don't forget about Bristol, their unfortunately named- pregnant 17 years old. Does anyone really believe that it is the boyfriend's baby?? If you ask me, we are dealing with some good old fashioned Alaskan incest. Look at that Dad! That man is a rusty van and a missing puppy shy of an amber alert!

You mark my words, there is some sick, sick shit going on in that household. And I for one can't wait to see it all come out. If there is one thing that I learned growing up in "small town America", it is that they common ground small town people share is usually a lot closer to "Deliverance" than it is to divinity.
