Years ago when my now wife and I would frequent our happy place here in Key West there was really only one place we felt welcome. Alexander's Guesthouse on Fleming St.

Every lesbian we know used to stay at the iconic Pearl's Guesthouse and ever since that closed we haven't really had a homebase here in Key West. When My wife found Alexander's Guesthouse it was like coming back to a familiar place filled with people who felt like family.

Short story: when Sandy and I decided that we wanted to be realtors in Key West, we stayed at Alexander's Guesthouse. Tim at the front desk and Laura the manger were two of the most kind and welcoming people we could've ever hope to meet. We were studying eight hours a day poolside at one of the tables closest to the coffee machine. Tim would check on us periodically and listen to our plan to move down and nod kindly thinking

there was no way that that was ever going to actually happen. Fast forward several months later we come knocking on the guest house door and said, “we did it”. We’ve been fast friends ever since.

Our very first year Tim and his husband loaned us a Christmas tree so that in our teeny tiny apartment we could celebrate even though we had no room to store anything and had no decorations of our own. That’s the heart of this island.

This island is filled with people with kind hearts, open arms, ready and willing to take you into their island family. As we sit poolside now we are grateful to Alexander’s Guesthouse for giving us a safe haven when we needed at the most. If you stay at Alexander’s Guesthouse when you come to town, tell Tim we say hi. (He’ll know exactly who you’re talking about.) Tip the bartender well at happy hour and always be kind to the house staff. They’ll take good care of you. Lez Go Out and enjoy the gay guest house that still caters to women!!

"READY WHEN YOU ARE" BY GARY LONESBOROUGH

c.2022, Scholastic PUSH | \$18.99 | 245 pages

Loud thunder-booms.

Spiders and snakes. The number thirteen, clowns, cemeteries, and heights. There are a lot of things that you can fear, just as there are a lot of ways you can overcome phobias, if you want. Vanquish those shivers by taking classes, being brave or, as in the new novel, **"Ready When You Are"** by Gary Lonesborough, you can let someone gently help you.

If he had to admit it, seventeen-year-old Jackson Barley had a love-hate relationship with Christmas.

He loved its traditions, and because it was something out-of-the-ordinary. When hanging out with your mates on the Mish is all you normally do, it's nice to have the holidays to break up the same-old. But over Christmas break, his Aunty Pam always brought his cousins around and the house was full of little kids. Jackson loved his younger brother and his cousins, but man, could they make a racket!

This year, another thing was unusual: Aunty Pam arrived Christmas Eve with a teenager she was caring for, a boy named Tomas who'd just gotten out of juvie. Of course, Jackson's mother said that Tomas could bunk in Jackson's room and that wasn't cool, not at first. Jackson's mind was elsewhere: his girlfriend broke up with him for reasons he couldn't discuss.

For most of his life, he had known that he was "different." He tried to be like other boys, but it just didn't work that way and he was afraid to even think about his feelings. And now there was this outlaw kid, another Aboriginal boy like him lying on a mattress in Jackson's bedroom and oh, Tomas was beautiful.

But Jackson wasn't gay, or at least he wasn't ready to be. He wanted a summer with his mates, and girls, but he wanted Tomas to kiss him, too. How could he be true to himself? And what would people think?

There are three main characters inside "Ready When You Are": Jackson, Tomas, and alcohol. Lots of alcohol, and teenagers who are often excessively drunk, which almost totally mars the sweetness of this novel. Put aside endless Outback parties and repetitious beach forays, though, and you might be charmed by this familiar-not-familiar boy-meets-boy tale.

In placing his novel in an Aboriginal community, author Gary Lonesborough gives U.S. readers a unique setting and immersion in a culture where life feels more relaxed than perhaps they're accustomed – but yet, coming-out struggles for gay teens still exist.

This leads to a story that, scene-for-scene, is predictable and common in YA romance novels – an aspect the genre's most fervent readers passionately rely on. They'll also love Jackson, a boy in a man's skin who acts responsibly and genuinely, but who's not yet too self-assured about it. Life through his eyes is the best part of this book.

Though you'll likely find this novel in the Young Adult section, it's absolutely appropriate for grown-ups with fond memories of first love. "Ready When You Are" has its lows, but it might also make your heart go boom.

MY BIG GAY LIFE

Brad Loekle

STRAIGHT WOMEN WILL BE THE DEATH OF ME

I love straight women. I have been the fruit to their fruit fly my entire life. But I have to tell you that I worry about them all the time. And they drive me to drink. Granted, that's a short trip but, none the less, after talking with a girl-friend for more than 10 minutes about her love life, I usually need two shots of tequila and a light concussion to try and meet their crazy half way. I've seen people saying they watched "Tinder Swindler" on Netflix and just can't understand how women fall for, and put up with, this sort of insanity. Well, I do! Because straight women seemed to be either programmed or conditioned to put up with a seemingly infinite amount of straight male bullshit in order to find love... or even just to get their kitty punched on the regular.

However, women also seem to always have two things they will not tolerate. Now you'd think those two things would have to be "non-violent" and "not married and living a double life". Or something to that affect. But, no! So often I find it's not those two things. In fact, it's always two very specific and niche things that are only supremely relevant in the mind of that individual lady.

My dear friend, Sharon, was telling me the other day how she cannot believe how her lady neighbor lets her man not work, not pay rent or bills... "and he doesn't even dick her down or do the dishes, Brad?!" I quickly learned that those are Sharon's two things. Sure, she'd prefer you be single, pay your own damn bills AND dick her down right after doing the dishes. But I quickly found that dick and dishes were the key to her heart... and her Baby Gap.

She then told me the current man in her life "dicks her down good and always does the dishes... which is why I don't mind what he does for a living."

"What the fuck does he do for a living?!", I asked. Already knowing nothing good could come from this line of questioning.

"Well, he's a professional poker player."

"Sharon, saying you're a professional poker player is like saying your job is to stand in in a gas station convenience store and rub off scratchers all day."

"I know! But he makes so much money at it that he had to transition from his previous job."

"Which was?", I ask, waiting for the next shoe to drop.

Sharon sheepishly says, "He was a magician, Brad. He was a magician."

"Oh, so he has a seven-layer bean dip of bullshit to serve up to you ladies in exchange for that good D and them clean dishes?! I see you."

Three days later Sharon called me to tell me she thinks he has a girlfriend. A pipe had burst in the apartment above his and he sent her a video of all the water leaking into his shower from above. Sharon, like any healthy-yet-mentally-destroyed woman, used the video like an episode of CSI to study all the products and determine that half of them had to belong to a woman. When I asked if there were any other signs of a girlfriend in his life, she told me, as if totally sane, "Oh there is this girl who seems to drive his car a lot and goes in and out of his apartment regularly. But I didn't think much of that until I saw all the Tresseme bottles in his shower."

Straight women will be the death of me.

E-mail your questions to
nana@keywestgayrag.com

Dear Nana,

My boyfriend is the worst when he's sick. He's miserable but then also won't go to the doctor. When he does, he never does what the doctor tells him to. I try to be supportive but he's just unbearable when he's not well. What do I do?

There's nothing worse than a "non-compliant patient". That is the medical term for prick-when-sick. Of course, none of us enjoys being ill. It sucks... with teeth. But it doesn't make anything better to be a bitch about it. Causing others pain won't take our own away. I would have a (loving) talk with him when he IS well to try and stem the tide for his next sick day. No use trying to get someone to grow as a person when they're on death's door at the moment. See if that has any impact. If you've already done that then it's time for you to start making your own boundaries so you don't end up burning out like a Nurse Ratchet. Remind him to take his medication or do what the doctor said. If he says he's not going to, then fine! He can wallow in misery. But make sure that pity party is a party of one. You can be supportive without being a door mat. I know it won't feel right to turn half a blind eye, but he is a grown man and he needs to act like it regardless of his temperature.

Dear Nana,

My mother keeps talking about moving in with me when she gets to an age where she won't be able to live alone anymore. I don't know that, that is what I want for myself or for her. Do I bring that up with her now somehow? Do I wait until we have to cross that bridge? I don't want to start a fight but I also don't want her to spend the next however many years believing in a future I haven't agreed to. Help!

Tale as old as time. And your mother might be as old as time someday. Each old fart is their own unique pain in the ass. Take it from someone who is one themselves! These sorts of talks are always complicated. If you think this is something that could be a reality in a year or two, then it's time to start beating around the bush a bit. But do it gently at first. Ease her into the shallow end of... well, the end. If this is something that is 5+ years away, I'd simply say something like, "No way to know where either of us will be in five or ten years, mom. And no way to know what shape we'll both be in."

This takes the pressure off you and also reminds her how many variables there are when it comes to later-in-life care. I can tell you that a lot of old ladies like me fight like hell when we first move into a senior living facility. But once we're in there a month or two, we can't imagine living alone at our age again. Good luck!

DO YOU HAVE PROBLEMS? OF COURSE YOU DO! WHY NOT LET NANA HELP YOU?!
